

POST-MASTER'S - COUNSELING

Certificate of Advanced Study (CAS)

This program is designed to offer advanced graduate coursework for those who have a master's degree or higher. Students will work closely with the assigned advisor to design a program to meet their goals. This program may also be used to meet additional requirements needed for licensing or certification in counseling fields.

This is a post-master's program. Students must have a master's degree (or higher) in counseling or a closely related field to enroll. Students will select a program of 18 credits hours to meet individual needs and goals. If not already documented through master's degree coursework, students must take CO 700 Orientation to the Profession of Counseling and Human Relations, Advanced Counseling Techniques, Legal, Professional, and Ethical Issues in Counseling, and an Advanced Internship or Capstone. If required courses are already completed and documents in master's degree, electives may be substituted. Additional courses may be selected from offerings in the MS in Clinical Mental Health Counseling and MS in School Counseling programs.

Programs may also include, with permission from the advisor and program director, graduate level courses from other graduate programs offered by Husson University (i.e. MBA, MS Criminal Justice, Masters in Public Health Administration). Students will work with the assigned advisor to design a certificate program that is substantive and focused on career goals.

CO 700	Orientation to the Professions of Counseling	3
CO 715	Advanced Counseling Techniques	3
CO 711	Legal, Ethical and Professional Issues in Counseling	3
CO 868	Capstone Course (Or Internship CO 881-886, Internship CO 891-900)	3
