

NUTRITION AND HEALTH

Husson's fully online Bachelor of Science in Nutrition and Health explores the relationship between nutrition and the physical and mental well-being of people and their communities. As a student in this flexible program, you'll learn about the evidence-based science behind nutrition, how to help people make good dietary choices and meet personal health goals, how to lead community-based advocacy programs, and how public health policies impact communities both big and small. Upon graduating from this program, you'll be prepared to pursue nutrition and wellness careers in a variety of settings, such as hospitals, nonprofit organizations, schools, government agencies, pharmacies, long-term care facilities and more.
